

DEMAND HUMAN RIGHTS IN THE COVID-19 RESPONSE AND RECOVERY

10 POINT PLAN

1 Address the racism and inequality made worse by COVID-19

The pandemic affects everyone, but it affects some much more significantly than others.

2 Ensure Healthcare:

We must seize this moment to ensure universal healthcare.

3 Protect Workers' Rights:

Look after the people looking after us.

4 Provide a Safety Net:

No one should be left behind.

5 Ensure Climate Justice:

The climate crisis hasn't stopped and will get worse without action.

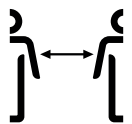

6 Release People in Immigration Detention:

No one should be locked up solely for seeking safety in the U.S., let alone during a global health crisis.

7 Free More People:

We must radically reduce the number of people locked up and protect those who are locked up from COVID-19.

8 Stop the Gun Violence Pandemic:

We must address gun violence as a public health crisis made worse by the flood of gun sales due to COVID-19.

9 Respect Privacy:

Our privacy remains as important during times of crises as it does during times of normalcy.

10 Respect Civil & Political Rights at Home and Abroad:

A crisis is no excuse for a crack-down.
